Tampa, FL 33609

Dear Sir/Madam,

I am writing to formally request urgent assistance regarding an ongoing issue of electronic harassment and manipulation that I have been experiencing in Zephyrhills, Florida. Over the past few years, I have been subjected to severe and constant harassment through various forms of electronic means, which has not only impacted my personal life but has also undermined my ability to live as a free individual within society. This harassment has left me feeling as though I am a slave in what is supposed to be a free country, despite my rights as a United States citizen.

It has come to my attention that nearly everyone around me is being compensated in some way to manipulate my life, controlling and influencing my actions, interactions, and decisions. I believe this is part of a coordinated effort to strip me of my freedoms, and I fear it may be tied to a Florida State Attorney investigation that began on March 22, 2021. Since then, my life has been altered dramatically, and I feel I am being persecuted by powerful individuals or entities with authority.

In addition to the electronic harassment, I have also experienced a form of informal group social control, where individuals I have known for over 17 years, including friends, family, and even my own children, have distanced themselves from me. Many have expressed fear and apprehension about being associated with me, stating things like, "Trouble follows you, Matt, and we can't afford that kind of problem. We have property, businesses, and families of our own, and can't risk them for you. I'm sorry, Matt." This coordinated social pressure has left me isolated, vulnerable, and without support from those I once trusted and relied upon.

Furthermore, I believe that over 100 of my correspondences to various federal agencies have been intercepted. Despite my consistent attempts to reach out for help online, I have been silenced, and none of my reports have led to any action or response. It appears that my communications are being blocked or manipulated to prevent me from reaching the necessary authorities. I cannot help but wonder if this might be linked to my national origin from Upstate New York, though I am unsure at this time. Regardless, this level of obstruction has left me feeling utterly powerless.

I have reported this situation to the Pasco County Sheriff's Department multiple times, and I have also reported their dereliction of duty for refusing to take my complaints seriously or forward them to the FBI as requested. Despite these efforts, I have not received any support or acknowledgment of my claims. Additionally, I have faced persecution in three separate court systems—the Circuit Court, the District Appeals Court, and the Florida Supreme Court. I have been treated unfairly, and my attempts to seek justice have been systematically blocked.

I am a free man, yet I am being forced into a position of subjugation, and I cannot break free from this situation on my own. I am appealing to the FBI for assistance in investigating this matter, uncovering those responsible, and helping me regain my freedom. The electronic harassment, manipulation, and exploitation I am enduring are unbearable, and I am left with no other avenue to seek justice.

I am desperately seeking your help and intervention to investigate and put an end to the harassment and manipulation I am facing. I fear for my safety and my future, and I hope the FBI can take swift action in this matter.

Thank you for your time and attention to this matter. I look forward to hearing from you soon.

Sincerely,
Matthew Aaron Davis
