Dear Commissioner Ron Oakley,

I hope this letter finds you well. I am writing to express my deep concerns about an incident involving an employee of our county who was falsely arrested and imprisoned by the Sheriff's Department. This situation has brought considerable distress to me and I believe it is imperative that we address it promptly.

My name is Matthew Davis employee number 12403 inactive status. Unfortunately, I have become entangled in a complex and troubling situation related to a personal matter involving the mother of my children and a law enforcement officer.

I was arrested without substantial evidence to support the charges against me and a blatant contradiction to the Castle laws in Florida. This situation appears to be influenced by personal motives and conflicts of interest, rather than adhering to the principles of justice and fairness that our community values. Such actions not only tarnish the reputation of the Sheriff's Department but also undermine the trust of the community in our law enforcement agencies.

I urge you to investigate this matter thoroughly and impartially to ensure that justice is served and that I, Matthew Davis, a representation of Pasco County is exonerated from these false convictions and credibility is returned to my name. It is crucial that we maintain the integrity of our county's institutions and hold those responsible for any misconduct accountable for their actions.

I kindly request your assistance in rectifying this situation and preventing any further miscarriages of justice. I trust in your commitment to upholding the principles of fairness, accountability, and justice within our county.

Thank you for your attention to this matter, and I look forward to a swift and just resolution.

Sincerely,

Matthew A Davis

Dear Commissioner Oakley,

I hope this letter finds you in good health. I am writing to you today to express my deep concern and frustration regarding a matter that I have been attempting to address for quite some time. Being that I am a Pasco County BOCC employee and have been for 3 years now. This marks my second attempt to contact you regarding an issue of significant importance - my false arrest, gangstalking and false imprisonment. I would like to bring to your attention the various steps I have taken in my pursuit of justice.

I have recently reached out to the office of Governor Ron DeSantis and other relevant agencies, including but not limited to the FBI, NSA, Department of Civil Rights, and the Florida Department of Law Enforcement. Despite my efforts to seek resolution and clarity, I have yet to receive a satisfactory response or resolution to my situation.

In my quest for justice from gangstalking, I contacted the Pasco County Sheriff's office, specifically the Dade City Office. Regrettably, my experience with one of the officers was disheartening. When I attempted to report gangstalking I was met with hostility, and I was shockingly informed by an officer that he would not accept my report. What was even more distressing, he warned me that if I continued to speak about this issue, which is my first Amendment, he would personally threaten me with imprisonment.

Then Pasco County Sheriff did just that a few weeks later after I informed the FBI of threats and gangstalking. With a false arrest and false imprisonment. After being shot twice by a felon with a gun whom was accompanied my co-defendent at my own residence. I was arrested for aggravated assault 2 counts and imprisoned for what I believe was the purpose to gain a false conviction on a case I had been trying to go to trial on for 2 years and went threw 8 court appointed lawyers before I was imprisoned and forced to sign a guilty plea or sit in jail until I did.

During this obscure perversion of the legal system I lost my retail property, my home, my children, my vehicles, every possession I ever owned of mine and my children's, my freedom, my civil and human rights. My life was threatened with multiple physical attempts and

my children's lives where verbally threatened. This deserves national coverage.

I believe in the principles of justice, accountability, and the protection of individual rights. My experiences have left me deeply troubled and concerned about the state of our justice system. I am reaching out to you, Commissioner Oakley, as I believe you hold a vital position within our county's administration. I am seeking your assistance and intervention in addressing the injustice that I have endured discreetly or until a larger entity intervenes.

I kindly request that you investigate my case, review the events leading to my false arrest and imprisonment, and ensure that the appropriate steps are taken to rectify this situation. Justice must prevail, and the truth must be uncovered.

I appreciate your attention to this matter, and I look forward to your prompt response. My hope is that through your support, we can work towards a resolution that upholds the principles of justice and protects the rights of all citizens in our community.

Thank you for your time and consideration.

Sincerely,

Matthew A Davis
