Re: Notice of Intent to File Civil Action, Alleged systemic deprivation of rights, unlawful child removals, and related misconduct by local officials operating under color of law in Zephyrhills / Pasco County.

This letter constitutes formal notice that I, Matthew Aaron Davis former Pasco County Florida Public Works employee (12403), intend to pursue all available legal remedies (possible class action) including

civil claims for actions taken under color of law (including, but not limited to, claims under 42 U.S.C. § 1983 and other applicable federal and state law).

My findings show that the City of Zephyrhills, acting through officials and policies, has systematically targeted families of permanent residents who began as tourists. Those families were subjected to “social-gorilla warfare” of sustained character attacks and coercive tactics, and technology was used to control, transfer, and exploit people effectively destroying households, enabling human trafficking and engaging in modern-day slavery by Digital Twin Continuum, Predictive Policing, Electronic Harassment, Direct Energy Weapons and 5g Communication Technologies. This conduct violates the 1st, 4th, 5th, 8th, 13th and 14th Amendment of the US Constitution and has produced considerable amounts of financial benefits for the City of Zephyrhills Florida, tied to its status as a “retired tourist destination.”

Unless the City of Zephyrhills immediately takes the corrective actions listed below. The claims will assert that actions by Zephyrhills law enforcement, city-affiliated programs, and other local government actors have unlawfully and systematically deprived permanent residents (originally tourists) and their families of constitutional and statutory rights (including unlawful removal of children, deprivation of due process, discrimination, and conduct amounting to trafficking, forced sexual servitude, forced substance abuse under color of law). This conduct **DEMANDS IMMEDIATE FEDERAL INVESTIGATION** and remedial action.

I. Facts (short form):

1. I have documented multiple instances in which children were removed from families on the basis of hearsay, generic assertions that “the parent is acting in ways that have harmed the child or will harm the child,” or claims of parental substance use without tangible evidence. Unfounded allegations.

2. Parents were required by the dependency court to accept court-directed Parenting Plans and to complete county-approved parenting classes that appear to be restricted to county-approved vendors (e.g., classes available only locally), effectively conditioning reunification on requirements limited to county-controlled providers.
3. Following removals, affected parents have, in many cases, faced concurrent criminal investigations and charges, employment terminations, and community defamation that appear coordinated and designed to prevent reunification, secure de facto control over family units, and funnel vulnerable people into cycles of exploitation.
4. There is credible reason to believe material evidence and municipal records (including complaints, internal communications, program enrollment lists, vendor agreements for parenting classes, contracts or records tied to the “CHIPZ” or similar municipal programs, law enforcement case files, body / dash camera footage, electronic communications, and public-assistance billing/payment records) relate directly to these allegations and must be preserved.

II. Demands / Requests (required immediate actions):

1. **Preservation of Evidence.** Immediately preserve and refrain from destroying, deleting, altering, or purging any records, audio/video, electronic communications (including emails, text messages, and internal messaging), incident reports, arrest records, use-of-force reports, body/dash camera footage, case files, contracts with parenting-class providers, vendor lists, CHIPZ program records, or any records related to the removal of children and related investigations involving the named individuals or policies referenced herein. This is a formal litigation hold.

2. **Internal Review and Report.** Provide a written confirmation within 14 calendar days that the preservation demand has been honored and list the categories of records preserved (date-stamped). (If the City objects to a 14-day confirmation, provide the earliest possible date you will confirm preservation.)
3. **Referral / Cooperation Request.** Request that the City Council authorize and send a written request to the relevant federal authorities for an independent investigation into the allegations, including but not limited to:

III. U.S. Department of Justice — Civil Rights Division (reporting portal / intake).

1. U.S. Department of Health & Human Services — Administration for Children and Families (ACF) / Office for Civil Rights where applicable, and HHS-OIG if program fraud or misuse of federal funds is suspected.
2. Federal Bureau of Investigations for a complete investigation into allegations of active duty or possibly retired duty law enforcement and military personnel involvement within official / governmental interests or domestic terrorist.
3. Florida Department of Children and Families (for supervisory review) and the Florida Attorney General's Office for potential state-level civil rights violations.
4. Public Response and Meeting Time. Place this letter on the next public City Council agenda and provide me with notice of the meeting at which this will be discussed. I will appear to present evidence and request the Council's formal action seeking federal review.

IV. Supporting Evidence (available for review upon request):

1. Public Records in the Sixth Judicial Circuit Court (case number 2021CF001143CFAXES, 2021CF001328CFAXES) of parents, post child removal, extensive criminal records with roughly \$40,000 - \$50,000 higher investigational cost as compared to similar charges of people without child removal. Along with certified documents of Constitutional violations (persecution) being ignored and plentiful under color of state law.
2. Department of Children and Families statistics reports on child removal in Pasco County Florida dropping 65% post arrest of Jeffery Epstein. Also Pasco County Florida mortality rates of children in custody of the state being 218% higher than national average post arrest of Jeffery Epstein within Pasco County Florida.
3. USA Census statistics reports in recent years in relation to US cities' rise in population and family homes being severely deficient within Zephyrhills, Florida.
4. Requested Records of literally every child removal within the Zephyrhills Florida area in relation to Federal and Constitutional Rights violations that are not being addressed. As literally every child removed from families in Zephyrhills Florida violates the US Constitution in due process and right to care custody and control of a person's children.
5. CHIPZ Program of Zephyrhills Florida Police Department records of consecutive utilities payments to individuals who do not meet the requirements of the federal grant and taxpayers funds. Along with the improper use and sale of access to restricted technology to human traffic, torture and enslave the extreme poverty level or criminalized (very likely fraudulently) citizens.

V. Reservation of Rights:

1. This notice is not an exhaustive statement of all facts or claims. I expressly reserve the right to amend, supplement, or expand the factual allegations and claims and to pursue all available legal and equitable remedies.
2. Absent timely compliance with the preservation demand and good-faith cooperation (including scheduling for a public discussion and referral to federal authorities), I will proceed to file a civil action and any ancillary petitions for injunctive relief, immediate preservation orders, and claims for damages and costs.
3. Please direct all communications regarding this notice to me at the contact information above. I prefer first contact by email with a follow-up by certified mail and phone.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ma Davis', with a stylized flourish at the end.
