

DoD Inspector General Complaint - Civilian Surveillance by U.S. Marine Corps

Full Name: Matthew Aaron Davis

DOB: 01/05/1988

Address: [Your Full Address]

Phone: [Your Phone Number]

Email: [Your Email Address]

Allegation:

I am a civilian residing in Florida who believes I am being subjected to unlawful surveillance and monitoring by members of the U.S. Marine Corps or associated Department of Defense personnel.

This includes:

- Persistent electronic surveillance (possible drone/UAV presence)
- Audio or subliminal communications resembling military PSYOPS
- Involvement of individuals believed to be active-duty Marines or former military personnel
- Psychological harassment techniques normally associated with intelligence/military operations
- Unauthorized use of my identity or presence in informant databases without consent or knowledge

I am not under criminal investigation, not a federal employee, not involved with military or intelligence services, and I have no lawful basis to be monitored by the military.

Background:

This alleged surveillance began after I was falsely charged in Pasco County, Florida, in 2021-2022. After serving time and resolving the legal matter, I began to notice increased interactions with

military personnel, suspicious technological interference, and what appears to be directed psychological operations. These intrusions have disrupted my life, relationships, and health.

I am the father of three children birthed by Christina Renee Hills, niece of Dean Marshall Hills Jr., a U.S. Army and Marine Corps veteran of over 30 years. I suspect military influence in my legal matters due to this familial connection. Despite filing legal motions and a post-conviction relief application, my requests have been ignored by the courts, further suggesting covert influence.

Request for Relief:

- Investigate whether any military intelligence or Marine Corps personnel are involved in unauthorized civilian surveillance
- Determine if I have been misclassified as a confidential informant or target in a military-connected operation
- Cease any and all unauthorized monitoring or data collection
- Provide a written explanation of any and all records connected to me

Declaration:

I certify that the information I have provided is true and correct to the best of my knowledge. I respectfully request a formal investigation into this matter.
