Office of the State Attorney
Sixth Judicial Circuit of Florida
Attn: Administrative Division
14250 49th Street North
Clearwater, FL 33762

To Whom It May Concern:

I am writing to formally request a comprehensive investigation into serious misconduct and abuse of authority surrounding the initiation and conduct of a criminal investigation launched against me on March 22, 2021 in the Sixth Judicial Circuit Court of Florida. At the time this investigation was initiated, I was a employee with Pasco County Public Works (Employee ID: 12403), and had no disciplinary or criminal history warranting such intrusive or covert surveillance measures.

The individual assigned as the lead investigator on my case, to my knowledge, was Ms. Bridget Summers. Based on personal observation and the events that have unfolded since the initiation of the investigation, I have strong reason to believe Ms. Summers may have abused her access to restricted surveillance or monitoring technologies, possibly allowing or enabling a third party /

parties believed to be her boyfriend, Michael A. Cowell to unlawfully utilize or duplicate these systems for extrajudicial purposes of human trafficking.

Since the start of this investigation, I have been subject to persistent and coordinated electronic harassment and gang-stalking. This includes constant surveillance, attempts to destroy my reputation through character assassination, false statements and credible threats to my personal safety and the safety of those around me. These actions continued during and after the conclusion of the investigation, escalating to the point where my entire social and familial support system has collapsed. I am now on the verge of vagrancy.

As a direct result of these actions:

1. I lost permanent custody of my three children, who are now missing and unaccounted for.
2. My significant other of 15 years is deceased under unexplained circumstances.
3. My home, vehicles, possessions, and literally all personal relationships have been destroyed.
4. My image in the public eye has been criminalized through orchestrated associations with individuals incentivized to portray me negatively or entrap me socially and legally.

I have reason to believe several of these individuals were compensated with monetary or material gifts potentially operating as "crisis actors" to isolate and discredit me. Then video edit and publicize to paint an inaccurate image of me.

It is my belief that this investigation, which was initiated solely on unsubstantiated hearsay, was used not to pursue legitimate criminal justice objectives, but to interfere with a concurrent dependency case involving my children, that was initiated in the same month, ensuring that I would be unable to maintain or regain custody so they could be human trafficked. The charges brought were ultimately baseless, and the procedural tactics used strongly suggest the use of psychological warfare techniques, surveillance technology misuse, and potentially illegal coordination with military personnel or individuals connected to child trafficking networks.

Accordingly, I am demanding:

1. A formal internal affairs investigation into the Investigator including the use of surveillance tools, communications during the case, war tactics used and relationships that may constitute a conflict of interest.
2. A forensic audit of any digital surveillance or monitoring systems tied to my case.
3. A review of any State or Federal funds used in relation to this investigation and possible human trafficking organization..
4. Disclosure of any involvement by active-duty military personnel or contractors, in potential violation of the Posse Comitatus Act or other governing restrictions.
5. An investigation into the suspected misuse of resources that led to severe violations of my constitutional civil rights that could have hindered my ability to defend my parental rights during the concurrent child dependency case.

The gravity of these allegations necessitates immediate and impartial review. I am prepared to supply documentation, sworn affidavits, and additional evidence supporting my claims upon request.

This communication shall serve as a pre-litigation notice under applicable state and federal law, and is submitted for the purpose of seeking redress for civil rights violations pursuant to 42 U.S.C. § 1983 and related constitutional provisions. Failure to act on this request may be used as evidence of deliberate indifference in pending or future legal proceedings.”

Under your obligations as a supervisory authority within the State Attorney’s Office, and pursuant to your duty to ensure ethical conduct and oversight of prosecutorial and investigative personnel, I am formally requesting that you initiate an impartial and documented investigation into these claims. Please respond in writing within 14 business days confirming receipt of this request and outlining what steps will be taken. A lack of timely response may be submitted as evidence of administrative negligence or obstruction in federal proceedings.

This request is made in good faith and is intended to exhaust administrative remedies prior to the filing of a federal civil rights lawsuit. I reserve all rights to pursue legal action under the Constitution of the United States and applicable federal statutes

.

Please confirm receipt of this complaint and advise of the next procedural steps.

Sincerely,

/s/Matthew Aaron Davis
