RE: Formal Complaint – Civil Rights Violations, Persecution, and Malicious Prosecution by
Pasco County Officials

Dear Attorney Uthmeier,

My name is Matthew Aaron Davis, a former Pasco County Public Works First Responder (ID #12403), and I am writing to formally report a series of severe constitutional violations, malicious prosecution, persecution and discriminatory treatment I have endured by the Pasco County Sheriff's Office, State Attorney and the Sixth Judicial Circuit Court. I believe this persecution stems in part from my national origin being from Upstate New York and represents a grave abuse of authority and systemic misconduct.

This situation began on December 10, 2020, when I was falsely arrested for domestic battery. There was no due process or exigent circumstances to justify what followed—an immediate and unconstitutional removal of my three children. Although all charges were dropped by February 11, 2021, the Sheriff's Office continued to enforce the separation between me and my children, as documented in my public video titled "Slander Over Rules."

On March 9, 2021, both the mother of my children (my co-defendant) and I were arrested on fraudulent charges without probable cause. The charges were used to justify a one-sided State Attorney investigation against me, despite the fact that she had lost custody rights years prior and was involved in the same circumstances.

Over the course of that investigation, I was systematically subjected to gangstalking, trafficking into criminalized environments, and harassment. My right to a speedy and fair trial was repeatedly denied. I was assigned over 18 different court-appointed attorneys—some re-assigned after withdrawing. Notably, one such individual posed as a legal representative but was, in fact, an active-duty U.S. Marine, a direct violation of the Posse Comitatus Act. This violation was acknowledged in *Davis v. Nocco*, case number 8:24-cv-02907-KKM-NHA, where

Federal Magistrate Judge Natalie Hirt Adams documented this in her Report and Recommendation (Document 10).

On July 29, 2022, I was shot twice at point-blank range by a 6-time convicted felon while lawfully present at my residence, unarmed, and attempting to protect my property. Rather than treat me as the victim, I was again arrested and detained without justification, clearly aimed at coercing a plea deal. After nearly 9 months in jail, I reluctantly accepted a guilty plea on April 12, 2023, under duress and threat of indefinite incarceration.

By then, all of my assets had been exhausted, my family destroyed, and my civil rights thoroughly violated. I am still subjected to community harassment, slander, and what I can only describe as attempted social lynching via psychological targeting orchestrated by elements of local law enforcement.

Despite the overwhelming adversity, I remain determined to pursue justice for myself and my children. I have taken measures to secure and preserve all evidence and documentation supporting my claims and am committed to full accountability.

However, I also recognize the broader implications of this case and the potential embarrassment it could bring to the State of Florida if it becomes a matter of national attention. Therefore, I respectfully propose a discrete resolution in the interest of justice and closure:

- A financial settlement in the amount of \$5 million
- Safe passage and relocation to Upstate New York
- A mutually agreed-upon gag order to ensure finality and privacy

I offer this as an earnest and honorable attempt to bring a close to this deeply traumatic chapter in my life without further litigation or public exposure.

Thank you for your attention to this serious matter. I am available at your convenience to provide further details or documentation.

Sincerely,

Matthew Aaron Davis
