RE: Unauthorized Access and Misrepresentation in Use of FCC Microwave Video
Surveillance Frequency - Call Sign WPPG275

To Whom It May Concern,

I am writing to formally report a violation of FCC regulations involving Call Sign WPPG275, licensed to the City of Zephyrhills Police Department. The license authorizes use of the 2450 MHz microwave frequency band for public safety purposes, specifically law enforcement video surveillance. However, it has come to my attention that the listed contact person on the license, Matthew Hillen, is in fact a civilian named Matthew Heller with no official affiliation to any governmental or law enforcement entity.

Mr. Heller is neither an employee of the City of Zephyrhills nor a sworn officer. His access to and potential control of this frequency appears unauthorized and fraudulent. Furthermore, Mr. Heller is a multi-millionaire individual with a known business named "Hornblasters," and he maintains a private radio tower located at or near Patie Rd., Crystal Springs, FL 33541. There are serious concerns regarding his use of this infrastructure to facilitate surveillance and communications without legal authority. Mr. Heller's involvement in surveillance activities, paired with his access to law enforcement-grade radio frequencies, represents a national security concern and domestic terrorism risk. This raises serious concerns about violations of:

- 47 U.S.C. § 301 (Unauthorized Operation)
- 18 U.S.C. § 1001 (False Statements to a Federal Agency)
- FCC Rules under 47 C.F.R. §§ 90.135, 90.401, and Part 90.20

Further, if Mr. Heller has access to or disseminates video surveillance, this may violate:

- Federal and Florida privacy laws
- Fourth Amendment rights

I request a full investigation into this matter, including verification of Mr. Heller's identity, role, assets, and access. Please confirm receipt of this complaint and advise me of any findings or enforcement actions.

Respectfully,

/s/Matthew Aaron Davis
