This systematic weaponization of the judicial system to kidnap and human traffic my children and destroy my family has taken the life of the mother of my children who i was with for 15 years after being beaten by criminals employed by people acting under color of law. My childrens lives where almost lost after i was threatened to take a plea deal or suffer their death or my own. I have informed the FBI periodically throwout these 5 years of threats to my families life with no action taken by law enforcement. DETAILS OF INCIDENT

(Please provide name and contact information for any witnesses.)

Since 2017, my family has been subjected to repeated investigations by the Department of Children and Families (DCF) based on false reports made by Thurla Janelle Eckerd. Despite every investigation clearing us, the harassment has continued.

On December 10, 2020, I was falsely arrested for domestic battery. While the charges were eventually dropped, my children were taken from my custody despite my having full legal custody. This marked the beginning of a systemic abuse of the legal system against me, Matthew Aaron Davis, a former Pasco County first responder (ID #12403).

On February 11, 2021, no formal charges were filed in the domestic battery case, yet at my first custody hearing in March 2021, I was still denied custody of my children. The court demanded that I take parenting classes, even though I had already completed nationally-approved courses. They refused to accept my certification and insisted I retake the courses through Pasco County.

On March 9, 2021, both Christina Renee Hills (my partner and mother of my children) and I were arrested for burglary, dealing in stolen property, and fraud. After bonding out on March 22, 2021, I was the only one placed under a State Attorney investigation—likely due to my custody of our children.

Christina is the granddaughter (raised as the daughter) of Thurla Janelle Eckerd, and her uncle is Dean Marshall Hills Jr., a former Army-Marine Corps General. Some members of the special investigation team handling my case previously served under General Hills. This connection has led to violations of the Posse Comitatus Act, as military personnel or tactics were improperly used in a civilian investigation against me. I, a civilian and former first responder, was subjected to investigational gangstalking and military-style operations, which is unlawful under the Act.

For over a year and a half, I refused to accept coerced plea deals, while enduring the following illegal tactics:

1. **Illegal Surveillance:** My phone, home, and online activity have been monitored without cause. Still currently occurring.
2. **Harassment:** I've been harassed publicly through coordinated efforts and choreographed acts of intimidation to instill fear and get me to leave Florida.
3. **Electronic Targeting Harassment:** I believe devices like Voice to Skull (V2K) have been used to disrupt my mental peace along with directional speakers. Also many of my emails to the Federal Government have been intercepted.
4. **Psychological Abuse:** Ongoing noise campaigns and sleep deprivation have harmed my health.
5. **Gaslighting & Entrapment:** Attempts were made to provoke me into illegal actions and undermine my confidence.
6. **Coercion & Threats:** I reported multiple threats to the Sheriff's Department and FBI, but they were ignored. Despite complying with demands, these threats were carried out, and Christina became unrecognizable after her time in custody.

These tactics, used by the Pasco County Sheriff's Department in coordination with the State Attorney, demonstrate investigational gangstalking. I filed numerous complaints with the FBI after Pasco County officers refused to act

(Page 1 of 2)

(Continued on reverse side)

On July 29, 2022, I was arrested for aggravated assault after being shot twice while defending my property from a six-time felon. Despite being the victim, I was charged. The "Stand Your Ground" and "Castle Doctrine" laws should have protected me, but the law enforcement officers failed to intervene due to lack of due diligence. I suffered as a result of the special investigation team's actions of character assassination war tactics. This event was obviously to incarcerate me in an attempt to coerce a guilty plea and keep me from going to trial and all these events from coming to light.

These events, along with intricate family ties, reveal the motive behind weaponizing the legal system against me, and the illegal trafficking of my children, who are now in the custody of Thurla Janelle Eckerd. I have documented numerous violations of my Constitutional rights, federal laws, and the Posse Comitatus Act due to military involvement and war tactics deployed.

This is a severe case of not only derelict of duty and domestic terrorism to human traffic the children of a Pasco County First Responder, Matthew Aaron Davis, to a woman Thurla Janelle Eckerd, who has been deemed incompetent by Florida courts after a suicide attempt in Live Oak Florida and her husband Richard Eckerd who was charged and brought to trial on child molestation charges in Michigan. Who both are over the age of 75 and my 3 children under the age of 10 at time of removal. All because of military family ties the oath sworn by all officers of the law to the citizens of the United States means nothing? This was completed by a systemic weaponization of law enforcement and judicial system to terrorize a former first responder kidnap his children and human traffic them to people who have no business raising children illegally.

I will be forwarding a copy to the court house to be officially recorded.

To Whom It May Concern,

I am writing to urgently request intervention regarding the illegal use of restricted technology within Zephyrhills, Pasco County, Florida, that is being employed to enslave and torture citizens, including my family, to artificially inflate crime rates. This is evidently being done to keep local law enforcement agencies operational under false pretenses.

My family has been targeted and systematically torn apart through entrapment and the malicious prosecution of false charges by the Sixth Judicial Circuit Court of Pasco County. This was seemingly orchestrated to cover up the illegal removal and human trafficking of my children. My children's mother, Christina Renee Hills, who is the niece of Dean Marshall Hills Jr., a United States General of the Army-Marine Corps to my knowledge, and I are now subjected to severe torture until we comply with these unlawful actions through what I believe to be investigational technology.

I have spoken with 67 individuals within my community of Zephyrhills who have also lost their children to this system. These individuals, from various backgrounds, report similar experiences of pain, torture, and abuse at the hands of law enforcement, and in some cases, character assassination, forced drug addiction then overdose or suicide. To covered up murder of innocent citizens. This has been going on, to my knowledge, for generations.

In my research, I've observed a troubling pattern in my community where parents who have had their children taken by the system soon find themselves with an extensive criminal history. What's particularly striking is that the investigational costs of these criminal acts, which appear unrelated to the initial removal of the children, are significantly higher than those for individuals who have not experienced child removal. This disparity suggests that there may be a targeted and systematic effort to entrap these parents in legal troubles, compounding their hardships and further destabilizing their lives.

I am a Pasco County employee # 12403 with over 20 years of solid various work history and the father of three children. My family of five has endured many near-death experiences within a very short period. Despite reporting these alarming occurrences to numerous federal agencies and sending over 100 correspondences in the last four years, I have yet to receive a response.

Given the gravity of the situation and the lack of response from other federal agencies, I am pleading for military intervention in Pasco County, specifically in Zephyrhills. I believe that only the U.S. military has the capability to investigate and address these severe violations of human rights and civil liberties.

Thank you for your time and consideration. I implore you to act swiftly to prevent further harm to my family and other residents of my community.

Sincerely,

Matthew Aaron Davis

I was shot by a felon with a gun twice who was accompanied by my co-defendant at the time who had warrants out for her arrest at my legal residence. I was unarmed.

I was air lifted to the hospital where I was arrested for Aggravated assault after being deemed stable (about 3 hours).

There was claims that video evidence was uploaded to evidence.com that is non-existent. I asked for copies of reports made to only be denied or received altered reports and after being coerced into a plea deal I asked my 17th court appointed attorney for this case to appeal it only to be denied in writing.

My right to a fair trial has been taken from me and my right to prove my innocence of a false arrest has also been taken by a false investigation of rape being placed on me the same day I was arrested for Aggravated assault although no complaints have ever been filed and no reasonable cause other than to stop me from gaining justice for the wrongdoings done to me.

I have appealed a criminal case to the Second District Court of Appeals in Florida Pro Se and a elected official of the Public Defenders Office stepped in and wrote a Reason for Untimely Appeal to be heard on my behalf stating nothing but reasons it should not be heard although there was multiple violations of due process, ineffective counsel and Brady rule violations that occurred. Davis, Matthew v Florida Department of Children and Families

Dear Sir or Madam:

On July 24, 2024, the U.S. Department of Health and Human Services (HHS), Office for Civil Rights (OCR), received your complaint.

OCR enforces federal civil rights laws which prohibit discrimination in the delivery of health and human services based on race, color, national origin, disability, age, sex, religion, and the exercise of conscience, and also enforces the Health Insurance Portability and Accountability Act (HIPAA) Privacy, Security and Breach Notification Rules.

Under our regulations, OCR normally can only accept complaints that are filed within 180 days of an alleged act of discrimination or within 180 days of when the complainant knew, or should have known, of a failure to comply with the HIPAA Rules. Your complaint alleges a failure to comply with the applicable regulations that occurred more than 180 days prior to the date you filed your complaint. The information you provided is not sufficient to extend the 180 day deadline for filing. As such, OCR cannot accept your complaint for investigation.

We regret that we are unable to assist you in this matter. If you have any questions about this letter, please contact Centralized Case Management Operations at (800) 368-1019 or (202) 619-3257 (TDD).

Sincerely,

I was continuously refused public records during and post conviction. These records I requested led to my conviction and even now post conviction I am denied access to them. This is a clear violation of my 6 amendment right to see all evidence held against me

Also I was given a outrageous invoice for a request of public information from a public servant. The law states that any cost incurred by the department would be mine to cover. A email uses no paper or ink and the law also states that the department cannot charge for labor of the individuals retrieving the records because my tax dollars pay for that.

Notice to the Public

As you review the instructions for the CE Form 50, *Complaint Form*, please be aware of a recent change in the law. As of June 21, 2024, the Commission on Ethics may only investigate complaints that are **"based upon personal knowledge or information other than hearsay."**¹ In compliance with the new law, ethics complaints that are not "based upon personal knowledge or information other than hearsay" cannot be investigated and will be dismissed.

IMPORTANT INSTRUCTIONS FOR COMPLETING A COMPLAINT FORM

Please read all instructions and the Information for Complainants below, carefully before completing the complaint form. The Commission can only accept properly completed complaints. Improperly completed forms may be returned.

PLEASE NOTE: The Florida Commission on Ethics cannot intervene in your civil or criminal case, nor can we give you legal advice. We do not have jurisdiction to consider complaints against judges or to direct the actions of government agencies.

SECTION ONE—Person Bringing Complaint (Complainant): This is your information. Please provide your name, address, and telephone number.

SECTION TWO—Person Against Whom Complaint is Brought (Respondent): The person against whom the complaint is brought is the respondent. Give the name, address, and telephone number of the respondent, as well as that person's office or the position he or she holds or held, or for which he or she is a candidate. All complaints are considered independently, so if you are filing complaints against more than one person, use a separate complaint form and provide separate information for each person you are complaining against. All complaints are confidential until a certain point in the proceedings, so do not reference the existence of one complaint in any of the others.

SECTION THREE—Statement of Facts: On a separate sheet(s) of paper please explain fully but as briefly as possible what it is you believe the respondent did that violated the ethics laws of the State of Florida. Please limit your submission to 15 pages or less, and do not submit voluminous exhibits or copies of statutes; if your complaint is deemed legally sufficient it will be investigated and at that point the investigator will obtain any relevant materials from you. **Do not submit items such as oversize documents, audio or video tapes, CDs or DVDs, or flash drives. They will be returned.** Materials on websites referenced in a statement are not part of the complaint. If you believe information on a website is relevant, please describe what the website says that you think is important.

SECTION FOUR—Oath: Complaints must be sworn before a notary or other official authorized to administer oaths. Unsworn complaints will be returned.

**Submit the *original* form to the Commission on Ethics.
Photocopies, faxes, or emailed forms cannot be accepted.**

Florida Commission on Ethics

PLEASE READ **INFORMATION FOR COMPLAINANTS**

Jurisdiction of the Commission: The Commission on Ethics has the authority to review and investigate complaints concerning possible violations of the State's ethics laws by state and local elected or appointed public officers and public employees and others as designated by Florida law. Most of the ethics laws are contained in Article II, Section 8, Florida Constitution (the Sunshine Amendment) or Part III, Chapter 112, the Code of Ethics for Public Officers and Employees. ***The Commission does not have jurisdiction with respect to the open meetings or public records laws, residency requirements, or elections laws, and has no jurisdiction with respect to judges, federal officials, or most employees or officers of private companies or attorneys in private practice.*** The Commission's jurisdiction is limited to *individual* public officers or employees.

By Florida law, the Commission on Ethics cannot conduct an investigation unless someone files a sworn complaint with the Commission alleging a violation of law has occurred, or it receives a referral from the Governor, the Florida Department of Law Enforcement, a State Attorney, or a U.S. Attorney. Without a complaint or referral, the Commission is unable to take action, even after learning of alleged misconduct through newspaper reports, letters, or phone calls. The Commission cannot accept anonymous complaints and it must disclose the identity of the complainant to the respondent. A copy of the complaint is mailed to the respondent within five (5) working days after receipt by the Commission.

Filing a Complaint: If you have knowledge that a person in government has violated the standards of conduct or disclosure laws or has committed some other breach of the public trust, you may report these violations to the Commission by filing a sworn complaint. Complaints must be on the form promulgated by the Commission. The currently used form is included with these instructions. Provide all the information you want the Commission to consider *with* the complaint; the Commission cannot consider correspondence not accompanied by a sworn complaint. In providing your statement of facts, indicate what the person did that you believe was wrong, and what facts you are aware of that give rise to that belief. If you believe the official—or some other person or entity—benefitted as a result of the alleged wrongdoing, state who you believe benefitted, and how you believe they benefitted.

Please write your complaint as briefly as possible. Including lengthy or voluminous exhibits may slow the processing of your complaint. Please do not include copies of Florida Statutes. Materials such as audio and videotapes, CDs and DVDs, and thumb drives cannot be accepted and will be returned. If you believe material in a book, periodical, website, or other outside source is important, please summarize that information and include it in your complaint, as such sources will not be considered incorporated by reference.

Florida Commission on Ethics

"A Public Office is a Public Trust"

All complaints are considered independent of one another, so if you are filing complaints against more than one person, please use a separate complaint form, and provide a separate statement of facts, for each person. Because each complaint is confidential until a certain stage is reached, if you file a complaint against someone, please do not refer to or identify other complaints you have made against others.

Pursuant to Section 112.324, Florida Statutes, no complaint or referral may be filed or disclosed with respect to a candidate for election within 30 days immediately preceding the date of the election, unless the complaint or referral is based upon personal information or information other than hearsay.

Statute of Limitations: All sworn complaints alleging a violation of the Sunshine Amendment or the Code of Ethics must be filed with the Commission within five years of the alleged violation. Time starts to run on the day after the violation occurred. The statute of limitations is tolled on the day a sworn complaint is filed with the Commission. If a complaint is filed and the statute of limitations has run, the complaint will be dismissed.

Confidentiality: *The complaint, as well as all proceedings and records relating to the complaint, are confidential until the respondent requests that such records and proceedings be made public or until the complaint reaches a stage in the Commission's proceedings where it becomes public. This means that unless the Commission receives a written waiver of confidentiality from the respondent, the Commission is not free to release any documents or to comment on a complaint to members of the public or press, so long as the complaint remains in a confidential stage.*

Procedures Followed by the Commission: The Florida Commission on Ethics will utilize the following process for your complaint:

1. The Commission staff must forward a copy of the original sworn complaint to the respondent within five working days of its receipt. Any subsequent sworn amendments to the complaint also are transmitted within five days of receipt. The Commission cannot exclude the identity of the complainant or any named witness from this material.
2. Once a complaint is filed, it goes through the following stages:
 - a. Determination of whether the allegations of the complaint are legally sufficient, that is, whether they indicate a possible violation of any law over which the Commission has jurisdiction. If the complaint is found not to be legally

Florida Commission on Ethics

"A Public Office is a Public Trust"

sufficient, the Commission will order that the complaint be dismissed without investigation, and all records relating to the complaint will become public when that order is rendered.

- b. If the complaint is found to be legally sufficient, the Commission's investigative staff will begin an investigation. The investigator will contact you and this is your best opportunity to provide any additional information you have that you would like the Commission to consider. The investigator will complete an investigative report.
- c. The investigative report is forwarded to the Commission Advocate. The Advocate is an Assistant Attorney General who represents the Commission in its prosecutorial role. The Advocate will make a recommendation as to whether there is probable cause to believe that there has been a violation of any of the ethics laws.
- d. The Advocate's recommendation will be heard by the Commission acting in a quasi-judicial capacity. Unless the respondent has waived his or her right to confidentiality, the meeting is closed to the public. Complainants may be represented by legal counsel at their own expense; however, a complainant is not a party in the Commission's proceedings, and the Commission's rules do not allow the complainant to participate. The complainant, or his or her legal counsel, will be notified of and may attend the hearing at which the Commission decides whether probable cause exists, but cannot participate.
- e. If the Commission finds that there is no probable cause to believe that there has been a violation of the ethics laws, the complaint will be dismissed and will become public when that order is rendered.
- f. If the Commission finds that there is probable cause to believe there has been a violation of the ethics laws, the complaint becomes public. A public hearing—which is similar to a trial—will be held before an Administrative Law Judge (ALJ) of the Division of Administrative Hearings (DOAH), unless the Commission Advocate and the respondent reach a stipulated agreement.
- g. The ALJ's findings, or the stipulated agreement, is then forwarded to the Commission for final action. The Commission is limited in its ability to modify findings of the ALJ. If the Commission rejects a stipulated agreement, the Advocate and the respondent may attempt to reach another agreement, or the case may proceed to DOAH for a public hearing. A person against whom a violation is found may appeal the Commission's final order to a District Court of Appeal.

When the Commission concludes that a violation has been committed, it may recommend one or more penalties to the appropriate disciplinary body or official and issues a public report of its findings. In complaints involving a sitting member of the Legislature the Commission does not have the ability to recommend a penalty.

Florida Commission on Ethics

Costs and Attorney's Fees: If the complaint is dismissed, the respondent does not have an automatic right to recover the costs of litigation and/or attorney's fees. However, he or she can file a petition asking the Commission to have the complainant pay those costs and attorney's fees. The Commission will decide whether the petition is legally sufficient, a proceeding in which the complainant and the petitioner, or their attorneys, may participate. If the petition is found legally insufficient, it will be dismissed. If the petition is found legally sufficient, there will be a hearing at DOAH, or the complainant and the petitioner may reach a settlement. If the matter is heard at DOAH, the ALJ's recommendation will be returned to the Commission for final action. The Commission is limited in its ability to modify findings of the ALJ. **In any case in which the commission determines that a person has filed a complaint against a public officer or employee with a malicious intent to injure the reputation of such officer or employee by filing the complaint with knowledge that the complaint contains one or more false allegations or with reckless disregard for whether the complaint contains false allegations of fact material to a violation of this part, the complainant shall be liable for costs plus reasonable attorney fees incurred in the defense of the person complained against, including the costs and reasonable attorney fees incurred in proving entitlement to and the amount of costs and fees. If the complainant fails to pay such costs and fees voluntarily within 30 days following such finding by the commission, the commission shall forward such information to the Department of Legal Affairs, which shall bring a civil action in a court of competent jurisdiction to recover the amount of such costs and fees awarded by the commission. Section 112.317(7), Florida Statutes.** This decision may be appealed to a District Court of Appeal. If costs and fees are awarded, the Department of Legal Affairs may bring a civil action to recover them, if they are not paid willingly.

Dismissal of Complaints at Any Stage of Disposition: The Commission may, at its discretion, dismiss any complaint at any stage of disposition should it determine that the public interest would not be served by proceeding further, in which case the Commission will issue a public report stating with particularity its reasons for the dismissal.

Other Information: More information about the ethics laws and the Commission's responsibilities is available at the Commission's website, www.ethics.state.fl.us, which contains publications, rules, and other information.
