The Honorable Charles E. Schumer
Senate Majority Leader
322 Hart Senate Office Building
Washington, D.C. 20510

The Honorable Kirsten Gillibrand
United States Senator
478 Russell Senate Office Building
Washington, D.C. 20510

Dear Senator Schumer and Senator Gillibrand,

My name is Matthew Aaron Davis, I was born in Oneida and was raised in West Winfield, New York. I graduated from Mt. Markham High School in the year 2006 with an advanced regents diploma, two certificates of Merit from former senators and a formal induction into the Society of High School Scholars.

A native son of Upstate New York who has been systematically persecuted since relocating to Florida. I write to you today with an urgent plea for help and oversight. Since my relocation to Florida I have started a family of 5 and was a first responder with Pasco County Public Works (ID #12403), where I was rapidly promoted due to my work ethic and leadership. This achievement, however, became the basis for what I believe was targeted discrimination due to my origin in the Empire State.

Since then, I have been subjected to sustained psychological, legal, and social warfare. I have been placed under an indefinite Florida State Attorney "investigation," where I have been criminally trafficked between incarceration and impoverished, criminalized communities under the guise of legal process. This cycle appears to serve no purpose other than intelligence collection, exploitation, and life-endangerment.

I have been repeatedly targeted by state actors using PSYOPS operations and advanced surveillance, including what I believe to be widespread deployment of directed energy weapons a covert and deeply unethical tool that manipulates behavior, induces psychosis, and, in some tragic cases, has resulted in death. These tactics are employed to force compliance, silence dissent, and destroy reputations. I am living proof.

The character assassination against me has been relentless. I have been falsely portrayed as a criminal, mentally unstable, and socially undesirable — not only in my local community but also digitally and systematically, tarnishing everything I stand for, including the values I brought from New York: integrity, resilience, and a commitment to public service. What began as a professional attack became an all-encompassing campaign to strip me of my identity, my family, and my constitutional rights.

I have pursued justice through every available legal channel the Sixth Judicial Circuit Court, Second District Court, Florida Supreme Court, and Federal Court only to be silenced, ignored, or buried under red tape and reputational sabotage. The judiciary in Florida has denied my voice, while those who orchestrated these crimes against me continue unchecked. I have written hundreds of correspondences to various federal departments to include the FBI, DOD, Homeland Security, DOJ, US Marshall, Attorney General, Florida Highway Patrol, every branch of the military and even local and state officials only to find out most of them have been intercepted by unknown sources. My federal court complaints also seem to be intercepted as I received court orders that are not compliant with the Federal code of Procedure.

I lost permanent custody of my children, my home, my possessions, my credibility and my freedom based on fabricated charges, coerced plea deals, and evidence suppression combined with numerous violations of almost every civil rights I possess. My court-appointed attorneys admitted I would not be permitted to go to trial due to political and media concerns. Meanwhile, those who harmed me during attempts on my life including felons with illegal firearms and individuals with active warrants have been shielded from accountability due to their southern origins. Despite multiple requests, I have been denied access to key evidence, including video footage, police reports and my Pro Se motions submitted are being ignored completely and I do not receive equal protection under the law.

The local government in Pasco County, with the complicity of law enforcement, has created an atmosphere where families from outside the South, particularly within Zephyrhills, Florida, a self proclaimed retirement destination, are intentionally destabilized, separated, and trafficked. With total disregard for any and all federal laws and constitutional rights. This systemic weaponization of the judicial system is especially targeted toward families as they do not generate revenue as tourists do. Mothers and fathers with children, using the dependency court system, forced poverty, subliminal manipulation, local defamation and extreme intimidation by means of direct energy weapons to enforce silence, break resistance and force compliance over actions. I am now among those enslaved by a regional power structure that sees New Yorkers or anyone not indigenous to mid-Florida, not as neighbors, but as enemies to be trafficked for monetary gains of local, county and state government.

I urgently ask your office to call for:

- Immediate federal oversight of Pasco County, Florida and the 6th Judicial Circuit.

- A Department of Justice investigation into the use of directed energy weapons, psychological operations, civil rights abuses, and trafficking of U.S. citizens under color of law by Pasco County Sheriff.
- A federal inquiry into the unlawful targeting and character assassination of public workers and residents based on national origin.
- Restorative justice and protection for me and others who have been exploited under this corrupt and unconstitutional system.

This is not just my story, it is a systemic crisis affecting hundreds of individuals in Zephyrhills, Pasco County, Florida who are stripped of their families, homes, and dignity without cause. Then the children are sold through the foster care system. Parents are sex and labor trafficked throughout the City of Zephyrhills as an added amenity for tourists in a human trafficking ring put in place by the cooperation of the local Zephyrhills Police Department and local millionaire families. If allowed to continue, these operations will pose an even greater threat to the constitutional integrity of our country. Possible initiation of war due to the opinion of slavery and the extreme weaponization of local police and county sheriff who have in recent years purchased military grade UAV's to patrol the City of Zephyrhills and tanks bought separately from their 50 cal machine guns by Pasco County Sheriff known as the "Wall Buster".

I ask you, as representatives of the state that gave me my foundation, to help me reclaim justice, my constitutional rights and accountability for the hundreds of families, more importantly children who have suffered complete destruction and separation of their families by this system of Communism and slavery in the United States of America. Please, don't let the voice of a New Yorker be erased in silence.

With respect and urgency,

Matthew Aaron Davis
